COVID-19 has been on everyone's mind. Around the World and across the USA, positive cases and deaths continue. We hope you have remained in good health.

In March, American Structures, Inc. was designated as an essential manufacturer of products supporting multiple sectors outlined in the CISA- Critical Infrastructure list. As an integral part of the water, wastewater industry we provide solutions around the country for clean water, wastewater, food and agricultural services.

We have remained open for business to continue serving our customers while maintaining the safety of our employees and their loved ones. Our workplace sanitation was heightened and we have had no COVID cases in our company. We are committed to serving our customers the best that we can, mitigating disruption and working with our vendors and supply chain partners.
